

## Content Management System Menu

Once you have “logged in” to the Content Management System. the next screen you see is the home page for the Content Administration. Here is where you will access the various pages create and edit content, upload documents and images, online registration for events and creating and editing news/stories.

From this screen you can update:

**Pages** – add or change content

**News/Stories** – add or update news stories

**Images** – Edit Images in the Image Library, or load new ones

**Documents** – Upload files into your Document Library

**Events** – create events for online registration
